

## SACE BOARD OF SOUTH AUSTRALIA

### Overseas Travel 2015

The SACE is delivered in a number of schools in Malaysia and China, where it is known as the 'SACE International'. Students undertaking the SACE International gain the SACE qualification, which is recognised by universities around the world.

Partnership agreements are in place between the SACE Board and the schools delivering the SACE International. These agreements set out the respective undertakings of each party, and include requirements for the SACE Board to provide teaching and learning support to the schools. As such, each year the SACE Board sends staff to the schools in Malaysia and China that deliver the SACE International, to provide professional development, training, and other forms of support to the schools. These schools pay a licence fee to the SACE Board to deliver the SACE, which represents an important source of revenue for South Australia.
